Cal-Nev Climate Justice Ministries Urgent Alert - Protect the Northwest Forests

"Climate justice through faith-inspired connection, education, advocacy, and action"

Trees and healthy forests have massive climate, environmental, and spiritual benefits. We need to be planting more trees and protecting our standing forests as invaluable carbon sinks.

But now, the US Forest Service is proposing to open up 800,000 acres of previously protected Northwest Forest.

The public comment period on this disastrous plan is open until **Monday March 17th**.

Californian Interfaith Power & Light is asking for us to send our comments to the Forest Service. Click on the button below for full details.
